NOW AVAILABLE

METRO MK1 1980-84,
METRO MK2 1984-95 &
ROVER 100 1995 ONWARDS

About Us

Magnum Car Panels was founded in 1970 with the object of supplying replacement car body panels to the aftermarket. Since that time the company has developed and manufactured more than eight hundred press tools, in excess of one hundred and fifty of these being for the classic Mini car, van, pickup and traveller.

The company takes pride in its ability to provide all Mini customers with a high quality product which is fit for purpose. During design, production, assembly and paint, the relevant departments are subject to a rigorous quality control system thereby ensuring complete satisfaction is achieved by the classic Mini enthusiast.

With over one hundred and fifty classic Mini panel tools and further planned for this year, all are manufactured using the latest three dimensional computer controlled milling technology. We feel sure we are able to satisfy the demand for classic Mini body panels throughout Europe, Australasia, Canada and the United States of America.
